PASADENA, CALIFORNIA

---

Memorandum

This list has much new material, which will be of real interest to your customers and attract new and desirable prospects. Nothing will make a stronger appeal and increase your sales volume than your reputation for having something unusual to offer, in addition to a well rounded-out line of first-class general nursery stock.

PRICES: Very substantial reductions from previous price lists.

and in addition,

TERMS: we will allow discounts of 5% for spot cash and 2% 30 days--60 days net; as well as an extra 5% off on orders of 1000 or more plants of one or more varieties.

The year 1934 should see business well started on the upgrade to prosperous times, so now plan to be ready to take care of an increasing future demand by a careful selection of your lining-out stock for immediate planting. Right now there is said to be an actual shortage in many lines of fresh first-class nursery stock.

Those nurseries who have the fore-sight and energy to keep up the quality, variety and quantity of their stock will emerge from the depression stronger and more permanently established.

We feature only quality stock and guarantee you entire satisfaction.
